CFG for features

For the feedback feature

For feedback participant type=null

Add participants

If participantType.isValidGiver()

Add participantgiver

Add++

Giver = collections.unmodifidable list(giver initializer)

T

F

T

Test Case	Input	Output	Expected Output	Pass/Fail
1	"R1"	Add participant R1	**R1 added**	**Pass**
2	"0"	Add participant = None	`Added participant == None;`	**Pass**

CFG for terms feature

For the terms feature

Test Case	Input	Output	Expected Output	Pass/Fail
1	201806	**DB result=1200**	**DB result=1200**	**Pass**
2	201 806	**Illegal exception**	**ILLEGAL eXCEPTION**	**Pass**
3	2090-06	**0**	**0**	**Pass**

CFG for Login feature

Login feature

For i>0

For password check

Password = pass

For i>0

For password check

Login successfull

return true

Test Case	Input	Output	Expected Output	Pass/Fail
1	"diko0"	pass= passed	Password = passed	Pass
2	201 806	Illegal exception	ILLEGAL eXCEPTION	Pass
3	0	0	0	Pass
